**DESCRIPTION**

*Acer griseum*  
ā'ser gris'ē-um  
Paperbark Maple  
20-30'  
15-25'  
China, Korea  
The Paperbark Maple is a small, slow-growing deciduous tree with an upright-oval habit. The blue-green leaves are tri-foliolate, 3-6" long, with coarse teeth. The most ornamental feature is the cinnamon-colored exfoliating bark. Fall color ranges from muted to brilliant red. Fruit is a winged samara.
