DESCRIPTION

Acer platanoides
ā'ser plat-an-oy'-dēz
Norway Maple
40-50'
35-45'
Europe

The Norway Maple has a symmetrical canopy and can grow quite large. Dark green leaves are a typical 5-lobed maple shape with pointed tips, although the Norway Maple's leaf is wider than it is long. Fall color is yellow. The leaf stem produces a milky sap when removed from the branch. Fruit is a winged samara.

FAMILY

Aceraceae

GENUS

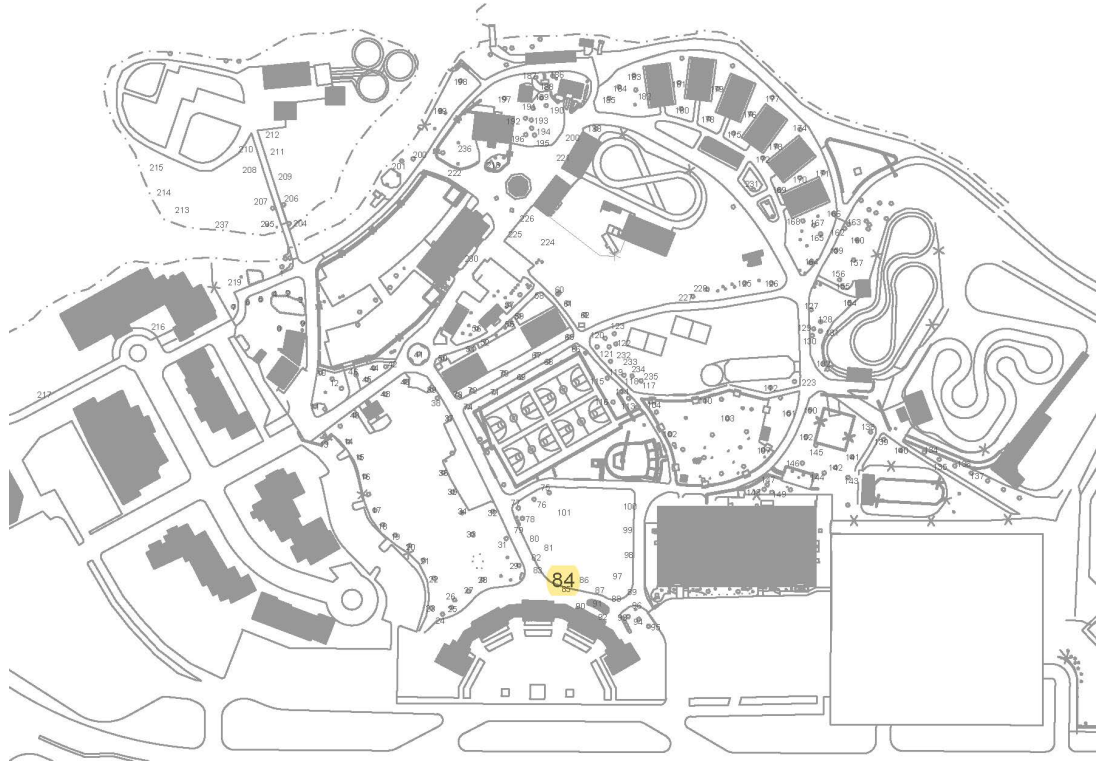

Acer
