DESCRIPTION

Pinus sylvestris
pī'nus sil-ves'tris
Scotch Pine
30-60'
30-40'
Europe, Asia
The Scotch Pine is loosely-pyramidal when young, becoming a wide-spreading evergreen as the lower branches die off. The bark is flaking, with an orange-red-brown color. Cones are 1-1/2-3" long. This tree is often used for windbreaks, timber, and Christmas trees.

FAMILY
Pinaceae
GENUS
Pinus
SPECIES
sylyvestris
